

SLS

DUBAI
RESIDENCES

A brief with a *twist*

EVERY ASPECT, BUILT FOR PERFECTION

Boasting 946 units, with 254 uniquely designed hotel rooms, 321 hotel apartments and 371 residences; spread over 75 floors, SLS Dubai will be one of the tallest hotels and residences in the region.

The property will also feature sbe signature culinary concepts Fi'lia and Carna, sbe's mixology lounge in the lobby, as well as signature rooftop nightlife venue, Privilege.

SLS Dubai draws design inspiration from the module of an 'oriel', a common feature and a distinct aspect of mid-century classic architecture. The overall façade texture creates a very dynamic mass and a unique character that evokes the image of a 'honey comb', whereby individuality of each module is articulated by rotating the geometry of the units by 45 degrees in 4 different axis to capture the breathtaking views and to maintain privacy between neighbouring units as well as the neighbouring towers.

Located in the downtown district, the property offers spectacular, unobstructed views of the world's tallest building Burj Khalifa, as well as Dubai Creek. Two magnificent infinity pools are situated atop the 75-storey tower offering an incomparable 360-degree aspect of Dubai, making the pools among the highest not just in the city, but globally.
